WHY OUR CLIENTS
CHOOSE GOLIATH

GOLIATH TECHNOLOGIES®

We asked our clients how Goliath has helped their organization...
This is what they had to say!

MIKE NELSON
Sr. VP of Strategic Services
Universal Health Services

"We selected Goliath Technologies because their end user experience monitoring and management supports Cerner and identifies systems degrading before physicians and patients are impacted."

DARIN PRILL
CTO
Children's National Hospital

"With the help of Goliath, we have reduced VDI logon times by 65% and Citrix/VDI support tickets by 71%."

BRIAN DIAMOND
CEO, Citrix PTEC Member
LANStatus

"With Goliath's software in place, we didn't have to hire more staff to manage our environment, it was like we added a whole team with a single tool working to prevent and resolve issues 24/7/365."

CHRIS VERNACI
VP and Partner
Oracle Cerner

"Goliath helps find the true root cause of end user experience issues by using data to identify what specific component is impacting experience so it can be resolved quickly and provide a better overall user experience."

BUZZY MULLAHKHEL
Sr Dir Application Services
Intermountain Healthcare

"Goliath is the only monitoring vendor that gives us visibility into true end-user experience from the endpoint logon through our internal VDI system to the hosted environment, and gives insights into end-user behavior – all of which can impact performance."

JAMES TREVASKIS
IT Manager
St. Dominic's Priory College

"There are many Citrix monitoring solutions on the market, however, after evaluating a number of products, it's clear that Goliath offers the most comprehensive solution, hands down."

MICHAEL PFAEFFLE
Senior Vice President & CIO
Empire Office

"The end user experience data has driven great conversations around our culture and work styles. We have the insights and visibility we never had before."

CHRIS TIMBERS
CIO
NorthBay Healthcare

"Goliath Technologies' end user experience monitoring gives us complete visibility into the end user experience from the time they logon to Cerner through their use of the application, in real-time, so we stay ahead of performance issues."

JAMES BATEMAN
Integration Architect
CoxHealth

"With Goliath, we were able to resolve a physician complaint in 20 minutes that would normally have taken at least a day and involved 3-4 teams to even get close."

JAMES STEWART
Senior Systems Engineer
WellSky

"Since implementing Goliath, we have essentially eliminated 'Citrix is not working' complaints."

VITALY PETROVSKY
Mgr, Enterprise Applications
Maimonides Medical Center

"Goliath provides end-to-end visibility across the entire delivery infrastructure and enables us to quickly isolate root cause of performance issues, identifying who in IT can help resolve the issue quickly."

GREG BECK
System Administrator
CGH Medical Center

"I use Goliath daily to quickly troubleshoot and resolve end user complaints around slow logons and poor performance with clinical applications delivered via Citrix. What had previously taken me hours to hunt down root cause, now takes me minutes."

AARON HILTON
System Administrator
Central Maine Healthcare

"Every morning, I use Goliath to set the stage for my day. The software proactively monitors events, conditions, and failure points 24/7/365 to help solve end user experience issues. It even alerts me before users are impacted."
